	Literacy	Maths	Weekly Project
Monday	<p>Watch this clip: https://www.literacyshed.com/the-sci---fi-shed.html#</p> <p>Children to plan out a narrative using the story mountain based around this clip. Remember beginning, middle and end.</p>	<p>Complete the space translating shapes worksheet. Use the modelling video on the school blog to help you translate shapes.</p> <p>Make sure you write the original coordinate and the translated coordinate.</p>	<p>Create your own game based on an aspect of space. E.g it could be a version of Monopoly but space themed.</p> <p>Create a comic strip of the phases of the moon. If you wanted to try making it with biscuits, try to recreate the model of the moons with Oreos.</p>
Tuesday	<p>Using your plans from yesterday create your story about landing on planet 'Pandora'. You can use the story mat attached to help you with your setting writing.</p>	<p>You are going to play battleships. You need to try and find your partner's battle ship based on the coordinates that they have given you. When you have done this, create your own quadrant to play battle ships on.</p>	<p>Create a model of the solar system. You might want to make your planets 3D.</p>
Wednesday	<p>Create a diary entry as if you were a reporter landing on planet 'Pandora'. Describe your journey there and the meeting of the inhabitants. Use the diary 'Helpful Hints' to help you create your diary.</p>	<p>Complete the alien invasion activity. You will need to follow the clues in order to find the correct coordinates to plot where the Aliens have landed.</p>	<p>Design and create a space rocket. You might need to use old recyclables to make your model. Test out your rocket in the garden.</p> <p>Create a fitness routine to train a member of your family like an assonant.</p>
Thursday	<p>Complete the SPaG code breaker. There are a list of SPag statements attached if you need them. Can you work out who stole the aviator suit?</p>	<p>Complete the alien word problems. You need to find out how many aliens there are in each class. When you have done this, can you create some of your own alien problems?</p>	
Friday	<p>Using resources around your house, create a reenactment or a movie of your story that created on Tuesday. You can retell it or act it out. Use the resources to build your characters and scenery.</p>	<p>Use your mental arithmetic strategies to answer these various questions. They will involve writing numbers down as words, rounding, calculating time and adding through negative numbers.</p>	

Don't forget to post your learning and comments onto the class blog.
